Dear Sirs:

We have received your letter of February 17, 1971 relating to subject Australian application and the need for filing a Request for Examination in that case. Please prepare the necedsary papers and file a request for modified examination not later than 15 May 1971, such modified examination being based on the grant of the corresponding British patent. Accordingly, we are enclosing a certified copy of British patent specification no. 1,162,274. Also enclosed are pages respecting various amendments which were made during the course of examination in Great Britain from which you should be able to determine the necessary amendments that have to be made in the Australian application to conform it with the British specification.
